## COURSE SELECTION

Academic Courses	Applied Courses	Open Courses	Locally Developed Courses
<p>In an academic course, students will learn the essential concepts of a subject and explore related materials as well. Although knowledge and skills in the subject will be developed through both theory and practical applications, <b>the emphasis will be on theory and abstract thinking.</b> Academic courses in Grades 9 and 10 lead to the university level courses in Grades 11 and 12.</p>	<p>An applied course covers the essential concepts of a subject. Knowledge and skills will be developed through both theory and practical applications. <b>The focus is on practical application.</b> Students will be given more opportunities to experience hands-on applications. Applied courses lead to the college and workplace courses in Grades 11 and 12.</p>	<p>Open level courses are appropriate for all students regardless of destination – college, university or workplace. Choice should be based on student interest and destination. Open level courses are available in all subject areas. Grade 9 open courses include art, music, business, technology and physical education.</p>	<p>Locally developed courses have been designed to meet the educational needs not met by provincial curriculum documents. It provides foundational literacy and communication skills. The course will develop understanding of the subjects concepts through relevant and practical activities. *For students who struggle to meet Grade 8 expectations.</p>
